

POLICY STATEMENT FOR THE PROTECTION OF THE ENVIRONMENT

Heyrod Construction Limited is a construction company covering building and civils works and acts as a principal and specialist contractor which operates within the United Kingdom. The core activities of the company are reinforced concrete structures including conventional concrete frame and slabs construction together with concrete works to individual prestigious buildings and structures. We undertake drainage installation, bulk excavation, site preparation and related groundwork, bridge building, tunnelling and road construction. We are also very active in the construction of concrete works for water and sewage treatment works.

The company is committed to conducting all of its business and contracting activities in a manner which safeguards the environment in which we all live and work. We shall continually improve our environmental performance, endeavour to prevent pollution and carry out our activities within our developing Environmental Management System which is working towards achieving ISO 14001:2015 when authorised by the Board of Directors.

Through our environmental management system we will: -

Comply with the requirements of all environmental legislation and other requirements. We will also cooperate with legislative and other relative regulatory bodies in developing and achieving improved performance.

Be committed to the continual improvement of its environmental performance by setting and reviewing environmental objectives and targets, which will periodically be reviewed.

Prevent pollution to air, land or water by eliminating foreseeable hazards to the environment.

Strive to reduce the quantities of waste materials generated by our operations.

Reduce the consumption of energy where feasible, throughout its operations.

Minimise the use of natural resources where possible.

Train and communicate with our employees to increase environmental awareness and we shall ensure compliance to our environmental policies and procedures.

Communicate this policy to all employees, we shall ensure that it is freely available to all interested parties.

Review this policy annually to ensure continued suitability and effectiveness in environmental performance.

Jim Ness
Contracts Director.
